PRESIDENT'S LETTER

It may have been a 200-year rain, but we had field day anyway. We had better conditions than we might have with the 6 and 15 meter openings. According to the ARRL, not all areas of the country got these openings. We also had a record number of Satellite contacts made, thanks to **George/K4GVT**, and his equipment. Thanks to **Phil/AC4PL**, for keeping all of us fed.

As mentioned on the email reflector, one of our ham families needs help. **Ken/KB4ZOH** and **Charlotte/KG4QXO** need a handicapped ramp built at their house in Georgetown south. Mend-a-house is helping but needs some more volunteers. Please contact **Gerry MacDonald (703-670-5473)** from **Mend-a-House**.

Next **OVH meeting** on **July 17**, we will have two programs. First, we will have a quick talk from a **Park Ranger** about our **Special Event** station in August. We will have the Special event at the Battlefield and we will find out how to cooperate with the Park.

Next, we will have a program on the right way to connect those "Pesky" N and **BNC connectors**. This program will be presented by **Ron Payne/WA6YOU**. Ron will also show us how to make a ground plane antenna from a **SO-239 connector**. Ron has presented this program to other clubs and it has been very well received.

We have participated in several **National Night Outs**. We are going to participate in another one. On **Saturday, July 29** at the **Virginia Gateway Mall** in **Gainesville**, we will have another chance to display amateur radio to the public. Please help. Our chairman is **Steve Frick/N4OGR**, at **703-361-0008**.

We would like to participate in the **Tri-it-Now Triathlon** on **August 13**. We do not have a chairman. Please let me know if you are interested.

FCC Invites Comments on Katrina Panel Recommendations

(Jul 11, 2006) -- Comments are due Monday, August 7, in response to an FCC *Notice of Proposed Rule Making* ([NPRM](#)) regarding recommendations of the independent panel that reviewed Hurricane Katrina's impact on communication systems (EB Docket 06-119). Reply comments are due by Monday, August 21.

"The Commission, in this proceeding, is to take the lessons learned from this disaster and build upon them to promote more effective, efficient response and recovery efforts as well as heightened readiness and preparedness in the future," the FCC said. Some of the wide-ranging proposals in the *NPRM*, released in June, could affect the Part 97 Amateur Service rules. The FCC asked if should explore amending its rules to permit automatic grants of certain types of waivers or special temporary authority (STA) in declared disaster areas. After last year's devastating hurricanes, the FCC issued a handful of STAs to permit licensees lacking HF privileges to operate on HF for emergency purposes. The *NPRM* further offered three specific areas for consideration: Waiver of Amateur Radio and license-exempt rules, permitting transmissions necessary to meet essential communications needs; waiver of application filing deadlines, something the FCC did last fall for amateurs living in hurricane-stricken states; and a streamlined STA process. Interested parties may file comments and view the comments of others via the Electronic Comment Filing System ([ECFS](#)). In either case, enter "06-119" in the "Proceeding" field (without quotation marks but including the hyphen).

According to Pike & Fisher, the conference will explore the evolution of BPL and look into why companies like Goldman Sachs and Google have jointly invested approximately \$100 million in BPL ventures. The conference agenda includes an overview of some recent BPL deployments, challenges utilities face in BPL rollouts, potential BPL applications and revenue streams, the status of standards development, existing and emerging regulations affecting BPL, and the status of efforts to alleviate BPL's potential to interfere with Amateur Radio. Joining Hare will be Chano

Gomez of DS2, and Pete Griffin, chairman of the HomePlug Powerline Alliance. Moderating will be Scott Sleek, director of broadband advisory services, Pike & Fischer.

Forrest A. "Bart" Bartlett, W6OWP, SK

(Jul 11, 2006) -- Forrest "Bart" Bartlett, W6OWP, of Paradise, California, died July 3. He was 92. For more than a half-century, W6OWP was the home of the ARRL code practice and West Coast Qualifying Run transmissions, provided for those unable to reliably copy W1AW. Licensed in the 1930s, Bartlett contributed several articles to QST between 1941 and 1995, including two on electronic keyer design in 1948 and 1951. Bartlett was a ham radio radioteletype (RTTY) pioneer. His friend Marvin Collins, W6OQI, says he and Bartlett may have enjoyed the longest-running RTTY schedule in the history of Amateur Radio.

Ham Radio Scout Camp Calling Protocol Established

(Jul 6, 2006) -- A group of radio amateurs active with the Boy Scouts of America (BSA) has established an HF calling plan for scouting camps. Dubbed the "Scout Camps Calling Protocol," (SCCP), the plan aim to make it easier for scouts in the US and around the world to contact other scouts for Radio merit badge requirements, Amateur Radio demonstrations, emergency preparedness, passing traffic or to just get acquainted. The SCCP stemmed from a challenge ham-scouter Nathaniel Frissell, W2NAF, posed to members of the Scout Radio Yahoo discussion group to launch a summer camp net, so scouts could talk to one another.
